FOR FOUNDER-LED PRODUCT TEAMS

Senior technology judgment, applied where it matters *most.*

Build a dependable product—or strengthen the engineering team already building it.

Work directly with Amit Verma across product decisions, architecture, delivery, and production. One continuous owner keeps business intent connected to what gets built and shipped.

Amit Verma

FOUNDER · FRACTIONAL CTO · BUILDER

01 · PRODUCT BUILD

From idea to dependable software.

Shape the right first product, establish sound technical direction, and carry it through implementation and launch with one accountable owner.

xaltris.com/product-build →

02 · FRACTIONAL CTO

Leadership for teams already building.

Connect business priorities to technical direction, delivery, engineering capability, and production health—without adding a full-time executive role.

Vibe to Viable

Focused hardening for an AI-built MVP. A concise review identifies where to intervene; the centre of the work is remediation across security, data safety, reliability, and change confidence.

JUDGMENT BEHIND THE WORK

Enterprise depth. Founder-level ownership.

Previously Head of Engineering at Capita, with earlier roles at iNautix / BNY Mellon and Cordys.

23+	75%	40%
Years across products, platforms, and teams	Infrastructure TCO reduction led at enterprise scale	Development-cost reduction through reuse and modernization

SELECTED WORK

Real operational products, personally carried through.

01	**SarasAI Cloud Labs**	Turned ad-hoc lab authoring into a governed, human-reviewed workflow spanning AI generation, cloud policy, LMS integration, provisioning, and cleanup.
02	**Veltrix Global Connect**	Replaced fragmented recruitment coordination with a structured operating platform for trust, mandates, candidate workflows, and financial closeout.
03	**Better Corporate Life**	Connected courses, guided reflection, accountability, AI support, and coach context into one longitudinal career-development product.
04	**Panoptic**	Built a private, explainable personal attention agent with explicit trust boundaries across desktop evidence, offline persistence, and user-controlled reminders.

Technology leadership grounded in delivery.

IIM Calcutta · NIT Warangal
Product, platform, cloud, AI, and enterprise transformation experience.
